Drexel University  
Playing With Data

## ASSENT FORM FOR CHILDREN/MINORS IN A RESEARCH STUDY

You are being asked to participate in a research study. In this research study we will be observing what you are doing at camp Play With Data, a camp on Tuesdays and Thursdays from 5:00PM-7:00PM from January 10th-26th 2017 . We will be looking to see what you are doing and learning at camp Play With Data through observations, questionnaires and surveys. We will also be asking you questions in focus groups about what you are doing and what you are learning. Besides this we will also ask you different questions about what you are doing. We want to see how you experience big data and what you are learning. These observations, interviews, and focus groups that you will be participating in will help us to find out more about data in education.

In order to take part in this study your parents/legal guardians will be required to fill out a consent form for you. The research team will be the only people who will know about your participation in this study, other than that, you will be completely anonymous. We will assign you a number and in our records you will only be referred to as that number. Our records will also be kept locked up tight and on secure and encrypted servers.

My parents/guardians know that I am being asked to be in this study.
